

Fact Sheet

Refixing Tiles

Tools

- Adhesive
- Tiles
- Tile spacers (if applicable)
- Grouting
- Damp cloth

Steps

1. Purchase the correct sized / coloured tiles
2. Ensure that the area is cleaned off of old adhesive
3. Apply tile adhesive to the area of the wall required
4. Press the tile into place and apply even pressure until you are happy with the positioning

5. Leave to stand for 10 mins
6. Apply grout to the areas around the tiles and wipe off excess with a damp cloth
7. If any of the above steps are unsuccessful please call the repairs line on 0800 0740169

We hope this information was helpful. If you are still experiencing problems with refixing your tiles, then please contact your repairs service.
